

CSA Practitioners' Workshop

Milan, 9th January 2018

- Attain deeper knowledge from **DJSI company leader** best practices
- Share doubts and lessons **learned with RobecoSAM specialists**
- Hear witnesses from participating companies in the predisposition of **CSA assessment**
- Share insights about the main trends in **SRI topics**

Purpose

- The *CSA Practitioners' Workshop* is addressed to Sustainability and Investor managers with an extensive working knowledge of **RobecoSAM Corporate Sustainability Assessment** providing hints and information that will support them in the decision making of their organization
- The workshop offers in-depth insights on the following aspects: **Materiality, Supply Chain Management, Impact Measurement & Valuation** and **Human Rights**. RobecoSAM top specialists will present the main trends concerning strategies, policies and CSA topics, with a focus on the four identified aspects. Furthermore, they will explain what is expected for the CSA activities. The participating companies will share the lessons learned about the four aspects and their knowledge and experiences with CSA

Contents

- DJSI outlook
- Detailed analysis of the following main aspects: **Materiality, Supply Chain Management, Impact Measurement & Valuation** and **Human Rights**
